Due to the overwhelming success of last year's conference, we are presenting the Taste of Technology event again this year. Come to this **FREE** conference to learn about the latest advancements in technology, and hear from consumers who love the variety of telecommunication access products and services available for anyone is unable to hear or have difficulty hearing on the telephone.

This is a great opportunity for professionals working with Deaf and Hard of Hearing clients and excellent for any agency that works with Senior Citizens who may be experiencing difficulty hearing on the phone.

Yes, I will attend the Third Annual Taste of Technology Mini-Conference!  
I understand that RSVPs will be accepted on a first come, first serve basis.
